

YOUR SAFETY IS OUR BUSINESS

With the current health issues facing the workplace, your safety is our business.

WE'VE TAKEN PRECAUTIONS TO MAKE SURE YOU ARE PROTECTED DURING YOUR TIME IN OUR CARE.

HOW WE KEEP YOU SAFE

**KEEPING YOU SAFE
MEANS MAKING SURE YOUR
THERAPIST AND CHAIR STAY SAFE**

Here's the Steps We Take Every Day to Keep You Safe

Your Massage Therapist

- As a healthcare provider, has received COVID-19 vaccination
- Completes personal health screening the morning of your service
- Wears face mask as health conditions warrant or gladly at your request
- Sanitizes hands immediately before your service with sanitizer meeting CDC guidelines

The Chair

- Sanitized completely before your service with hospital grade disinfectant shown effective against 2019 Novel Coronavirus (2019 nCoV)
- Covered with a soft single use disposable face rest cover made with absorbent medical grade hypoallergenic fiber
- Removal of chair's personal storage compartment eliminating opportunity for cross contamination
